01 *Introduction*

SMART INDIA MULTI
MANAGEMENT INSTITUTE
(SIMMI FOUNDATION)
envisions developing a
society based on legitimate
rights, equity, justice,
honesty, social sensitivity,
and a culture of service in
which all are self-reliant.
We look forward to
alleviating poverty and
enhance the dignity of the
poor in the world by
addressing basic, but
neglected issues of the
poor. Education is one of
the means through which we
can achieve our goals.
Women Empowerment is
another mode of
development, as women are
an important section of our
society and their
empowerment can bring
socio-economic and political
progress of the country.

Founder and Co-founder's message

02

Hello there, I am Manish Sharma - Founder of SIMMI foundation. We decided to form this organization to tackle the problems that are prevalent in the modern society. We focus on Women Empowerment, Sustainable development, the welfare of farmers, education for poor children and the list goes on... I strongly believe that we owe something to the society we live in. I and my team's quest to serve the destitute gives us the strength to work with dedication, sincerity and honesty. We are humbled by the support that we receive from students at various levels to create a better society..

Hi, I am Nitesh Kumar - Co-Founder of SIMMI foundation, which is a like-minded organization looking to provide an opportunity for youth to make positive changes in society. We have faith in the power of collaboration. When students from different cultures and countries collaborate to contribute to a similar cause, everyone gets the opportunity to grow and equally, to exchange cultures. I believe in the power of unity the most.

03 *Mission & Vision*

Our mission is to uplift those who are burdened under poverty, lack of education, male dominance and numerous other issues. Our mission is to improve the quality of life of the oppressed and helpless. Most importantly, our mission is to help those in need and to reach out to those who are vulnerable. By the means of education - improve life opportunities for some of the poor children living in marginalized communities. Ultimately, to improve the standard of living through addressing the concerns of basic necessities, education and security.

Mission

Our vision is to create a better and sustainable world. Where every human being regardless of gender, caste, race gets the opportunity to reach the height he/she aspires. We strive to create a world where the poor and the marginalized will have access to the basic necessities of life and education. We are optimistic that if we all start by taking small steps soon we will make the big move. SIMMI is going international, we are expanding not just our organization but our minds as well.
